

Gingerbread Man

Fox and Gingerbread Man Puppets

To make the mouth puppet for the fox:

1. Cut the flap of the envelope off- save it.
2. Open an envelope and put your hand inside to spread the sides apart.
3. Place the open edge down with one end pointing at you and the other away.
4. Pull the sides of the envelope out bringing the pointy ends together.
5. Put your hand inside and work the mouth puppet.
6. Flatten it out so that you can color in the tongue and teeth.
7. Now draw the eyes, color in the face, glue on the pom pom nose and ears.
8. Fold the flap in half and fold the sides up. Place inside the top part of the puppet so your fingers have something to hang on to. (see diagram)

To make the body:

1. Take a 9" by 11" piece of paper and draw a large, long triangle and another smaller one to be the tail.
2. Color in and attach the body to the head.

Draw the **gingerbread man** on brown paper or color in white. Decorate and cut it out. Tape a stick on the back.

You are ready to use the puppets to tell the story. Get behind a chair or table and.... "The gingerbread man ran and ran until he came to a great big river"" How am I going to get across that river?" and so on.
